NEGOTIATING DRILLING CONTRACT PINE GROVE GOLD PROJECT, NEVADA

LINCOLN GOLD CORP. (OTCBB:LGCP) is pleased to announce that it is presently negotiating a contract for the drilling of 880 ft of PQ-size core in four holes on the Wilson and Wheeler patented claims. The patents are located on the Company's Pine Grove gold property in Lyon County, Nevada. Permitting is in progress. The core will be used for metallurgical testing.

Progress updates will be reported as they become available.

Lincoln Gold's website (www.lincolngold.com) has had some updates added. Click the tab "Contact Us" and "Contact Info" and sign-up to receive your regular updates via email.

Lincoln Gold Corp. is a US-based gold exploration company located in Nevada with several projects in various stages of exploration which includes three properties in Nevada and one property in Mexico.

This Press Release may contain, in addition, to historical information, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are based on management's expectations and beliefs, and involve risks and uncertainties. These statements may involve known and unknown risks and uncertainties and other factors that may cause the actual results to be materially different from the results implied herein. Key factors that could cause actual results to differ materially from those described in forward-looking statements are:

- (i) the results of the NI 43-101 report on the Pine Grove properties may be different than anticipated;*
- (ii) the inability of the Company to achieve the financing required to pursue the exploration of the Pine Grove properties;*
- (iii) the result of further exploration of the Pine Grove properties*

Readers are cautioned not to place undue reliance on the forward-looking statements made in this Press Release.
